# Chapter 791

MAY 2023

## *Next Meeting Saturday, 13 May @ 9AM*

### **General Meeting: Can you believe it's May?**

#### **Chapter Business**

Our last general meeting was way back in March, and we have a lot to report about the Young Eagle events we have had since, and we'll have time to talk about all the stories about Sun 'n Fun 2023!

We would also like to announce that our chapter is now officially a 501(c)(3) organization with a new name of **EAA Chapter 791 Suncoast, Inc.** Thanks to the tiresome work from Craig L. before he retired from law practice. A copy of the new by-laws can be downloaded from [here](#).

Don't forget that we open the gate at 0800 for conversation and fellowship. The meeting will start at 0900 sharp. We also have a FAASTeam webinar scheduled for 1000. See details below for more information.

---

### **Young Eagles Flights**

On Saturday, 15 April 2023 our Young Eagles Coordinator, John V., kicked off the 2023 YE season with 17 flights for students at River Ridge HS.

Then on Saturday, 22 April 2023 we added 18 more sorties to our count when we hosted J. W. Mitchell HS.

Thank you to all the volunteers that came out on both weekends to support John V., the pilots, and especially the Young Eagles for their interest in aviation!

---

### **Chapter Logo Survey**

A couple of months ago a survey was emailed asking which logo you would like as our official EAA Chapter 791 logo. Well, the results are in, and it looks like Logo Option 3 is our winner! As you can see from the chart below, we had 26 votes and half went to #3.

1. Please select the logo you like best!

Logo Option 1

Logo Option 2

Logo Option 3

## Safety Briefing: Filing an ASRS or NASA Report

For May's safety briefing, I wanted to try something different. Starting at 10AM on the morning of our general meeting, there will be a live webinar titled, *Your Aviation Safety Get Out Of Jail Free Card*. I plan to present this on the big screen at the airport for anyone interested in attending.

Learn how you can protect yourself, and how you can learn from the mistakes of others by using this program. To view further details and registration information for this webinar, [click here](#).

The sponsor for this seminar is: **MN FAASTeam**

The following credit(s) are available for the WINGS/AMT Programs:  
Basic Knowledge 3 - 1 Credit
